# DMP version 4.1 Market Release Notes

What's new?

Profile User Level Setting with Time Limitation

It is now possible to set an end date on users access to a specific customer. Settings applied under the Permissions tab on the user.

You will also notice changes have been made to the appearance of the platform.

If this is the first time you have experienced a DMP upgrade, please note:

- During the upgrade, there will be an expected down time of between 10 and 15 minutes where DMP will be inaccessible.
- Firmware Campaigns and settings changes should not be scheduled to take place within 3 hours of a DMP upgrade.
- Recommended browsers to access DMP are Microsoft Edge, Chrome, and Safari.
- An updated version of the DMP Reference Guide can be found at **www.tunstall.co.uk/dmp-guide**
