

Firmware upgrade for Lifeline Smart Hub

Firmware version 5.10.8

- We've introduced an important firmware upgrade for Lifeline Smart Hub.
- This upgrade enhances the reliability of your Lifeline Smart Hub.
- Please upgrade all Smart Hub units to firmware version 5.10.8 as soon as possible.
- This can be done via DMP.
- Please refer to p43 of the DMP reference guide/user manual for further details on how to upgrade firmware.
- This can be found here;
